Dear Email Subscription Client:

Enclosed is the first issue of your subscription. Contained in this first issue you will find the report text, the current quarter's data and the current quarter's graphs. The subsequent issues (second, third and fourth) will contain only the data page(s) and the graphs. If this is not convenient for you, please contact us and we will continue to send the report text as well.

Thank you for using VERIBANC. As always, your comments are welcomed and we look forward to continuing to serve you.

Sincerely,
VERIBANC, Inc.
FOREWORD

Since our beginning in 1981 VERIBANC® has never been paid by any institution to rate it. Following our standards of independence and zero tolerance for bias, no Bank or Credit Union is paying us to provide this information. You can be assured you are getting the B.E.S.T. rating's and financial information with VERIBANC®’s guarantee: there is no potential for conflict of interest.

THE B.E.S.T. . . . . .

Balanced - our rating system blends predictability of bank failure with bank ratings degradation. This balance provides unmatched performance that has actually tracked the condition of the banking industry.

Effective - VERIBANC's ROR (Return On Ratings) is over 99 percent. We are able to detect banking problems with a high degree of reliability.

Seasoned - Since 1981 (through the difficult and the good times of the banking industry) our rating system has produced remarkably consistent results.

Transparent - we are the only bank rating company that has always published our track record. Because of our transparency, several insurance companies have audited and approved its use for insuring deposits in excess of the FDIC's limit.

Thank you for your interest in the information VERIBANC® provides. We hope you find this report useful and as always, your thoughts on any improvements are welcome.

Sincerely,
VERIBANC®, Inc.

Michael M. Heller
President
According to the most recent financial data available to VERIBANC, Inc. from the indicated Federal Banking Regulatory Agency, the named institution has reported its condition and income as stated below. Note that VERIBANC, Inc. does not give warranty advice, nor does it express an opinion, as to the financial condition of the institution named below. Accordingly, this report should not be taken to mean that VERIBANC, Inc. or any government regulatory agency considers the named institution to be either financially sound or in financial difficulty. The assessments of the appropriate regulatory agency on the financial viability of the named institution are not known to VERIBANC, Inc. A review of the other data and criteria considered by the federal banking regulators to analyze the financial condition of this type of financial institution may be important in assessing the condition of the bank, savings and loan association or credit union named below. IMPORTANT - FOR YOUR OWN PROTECTION, PLEASE READ THE TERMS AND CONDITIONS PAGE AS WELL AS THE REST OF THE REPORT.

An Executive Summary, generated on 03/03/2020 for:
CENTRAL BANK (FDIC#: 17612)
HOUSTON, TX

This financial institution is a state chartered Commercial Bank. The federal agency which supplied this data is the Federal Financial Institutions Examination Council. The most recent (current) financial numbers and ratios presented below, were based upon data released by the previously mentioned regulator.

Additional item(s) of interest for the current quarter are listed below:
- This institution is currently listed in VERIBANC's compilation of Blue Ribbon Banks.
- This institution has reported total problem loans and contract holdings of $861,000.
- No recent Regulatory Enforcement Actions have been levied against CENTRAL BANK.
TERMS AND CONDITIONS

The information contained in the Report (the "Report") has been derived from data released by the federal government bank and/or credit union regulatory agencies, which have, in turn, received their information from the institutions that they regulate. Since VERIBANC has not verified independently the data on which the Report is based, VERIBANC makes no warranty, expressed or implied, or representation as to the accuracy, adequacy or completeness of the information contained in the Report. VERIBANC EXPRESSLY DISCLAIMS ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE that may exist with respect to the Report. VERIBANC further disclaims any and all liability for incidental or consequential damages. Your sole and exclusive remedy against VERIBANC, should any information contained in this report be inaccurate to your detriment, is limited to the return of the purchase price paid by you for the Report.

Since the information contained herein is based on federal regulatory agency reports published at substantial intervals and since the financial condition of the institution described herein may be subject to change within short periods of time, please consult the enclosed page(s) for the date when the data upon which the Report is based was released by the appropriate federal agency. Please check with VERIBANC or the management of the institution itself for additional, updated information should you deem that advisable.

The Report was prepared by VERIBANC at your specific request and for your own purposes. The Report is copyrighted and the ratings terminology is protected by trademark. You are cautioned that copying, or displaying, selling, distributing or otherwise transferring the Report, or any part of it, to any person, without the written consent of VERIBANC, is prohibited by law. Due to the sensitive nature of the information contained in the Report, VERIBANC urges you not to disclose the information to any person. In receiving the Report, you agree to indemnify VERIBANC, and to hold VERIBANC harmless, including all attorney's fees, from and against any claim or cause of action asserted against VERIBANC by any person to whom the Report or the information contained therein is distributed or made known by you.

PLEASE READ CAREFULLY THE ACCOMPANYING EXPLANATORY PAGES WHICH ARE AN INTEGRAL PART OF THIS REPORT.

VERIBANC®, Inc.

SHORT FORM REPORT

This report describes several tests of the financial strength of a bank, thrift institution or credit union. The outcome of two of these tests is a color - GREEN, YELLOW or RED. Green is the most favorable result; Red is the least favorable. Additional criteria are used to assign Three Stars, Two Stars, One Star or No Stars to an institution. Three Stars are most preferred. No Stars are least preferred.

Of course, tests such as these can provide only an overview of an institution’s financial condition. A Green, Three Stars rating does not necessarily guarantee that the institution is healthy, nor does a Red, No Stars rating mean that it will fail. However, these tests utilize key measures employed by the federal banking agencies to evaluate the safety of financial institutions. More details are presented below.

THE EQUITY TEST

A financial institution such as a commercial bank, savings bank, savings association (thrift) and credit union does business by lending money that it has borrowed from its depositors. Thus, its business is controlling investments of other people’s funds. In addition, it uses (and, of course, controls) money and other items of value which belong to the institution’s owners. This portion is called equity. The total of its own equity and investments which really belong to others, i.e., all that an institution controls, is called assets. Your institution(s)’ equity, assets, and the percentage of assets which is equity are given on the data page(s) of the report.

It is both good business practice and a federal requirement for financial institutions to “have a stake” in the monies they control, namely, that a certain percentage of their assets must consist of equity. In fact, if the equity of an institution drops to zero or less, it is referred to as “insolvent”. For this reason, equity is often referred to as a financial cushion. It allows an institution to withstand money-losing situations without having to go out of business. The VERIBANC® equity test places an institution in one of three categories:

1) If the equity is 5% of assets or higher, an institution is ordinarily assigned the classification Green.

2) If the equity is between 3% and 5% of assets, it is ordinarily assigned the classification Yellow.

3) If the equity is less than 3% of assets, the color Red is assigned.

For institutions, which are losing money, the color can also be affected by the Income Test described as follows:

* As of 7/21/2011 all Savings Associations (Thrifts) are regulated by the OCC and the OTS was absorbed by this regulator. Effective January, 2012 all thrifts will become banks, per the 2010 Dodd-Frank Act.
THE INCOME TEST

Even though earning money is the purpose of any business, profitability can sometimes be elusive. Banking, like any other endeavor, can encounter difficulties that cause an institution to lose money. One way of measuring the seriousness of losses is to pose the question, “How much of the institution’s remaining equity does the most recent loss represent?” For the institution(s) included in this report, this question is answered on the data page(s). The VERIBANC® income* test considers results in three possible ranges:

1) If the institution had no net loss (i.e., is operating profitably), it is ordinarily classified GREEN.

2) If the institution had a modest net loss, it is ordinarily classified YELLOW.

3) If the loss rate was significant†, the color RED is assigned.

THE VERIBANC® COLOR CLASSIFICATION SYSTEM

The color classification blends the results of both the Equity and Income Tests as follows:

GREEN The institution’s equity exceeds five percent of its assets and it had positive net income during the most recent reporting period. Of the three color categories, this is the highest based on the criteria described.

YELLOW The institution’s equity is between three and five percent of its assets or it incurred a net loss during the most recent reporting period. Both of these conditions may apply. If there was a net loss, the loss was not sufficient to erode a significant portion of the institution’s equity. The items, which result in a yellow classification, merit your attention.

RED The institution’s equity is less than three percent of its assets or it incurred a significant net loss during the most recent reporting period (or both). The items, which result in a red classification, deserve your close attention.

* income does not include unrealized holding gains (losses) on equity securities not held for trading

† significant loss rate refers to a net loss that is not offset by a significant gain
HOW THE COLOR CLASSIFICATION CRITERIA RELATE TO THOSE USED BY THE FEDERAL BANK REGULATORY AUTHORITIES AND FINANCIAL ANALYSTS

Banks and thrift institutions are required by law to meet a variety of capital measures. When these measures decline below certain norms, the Office of the Controller of the Currency (“OCC”), the Federal Reserve Board (“FRB”) or the Federal Deposit Insurance Corporation (“FDIC”) initiate remedial measures and the bank is subject to additional monitoring. One norm used in the financial industry is whether or not an institution’s equity is at least 5 percent or more of assets. If an institution’s equity does not meet specified minimums, regulatory authorities usually take corrective action in the form of compliance orders.

PROBLEM LOANS

The color classification discussed in the previous section indicates the institution’s actual financial condition as of the reporting date. To help determine the possible future trend of an institution’s health, VERIBANC® provides information about the amount of money that it has lent or invested in securities for which repayment is late or in doubt. Many institutions maintain loan loss reserves to provide a first line of defense against borrowers who default on their loans and securities investments that go sour. The amount of problem loans, problem securities and securities-type contracts, in excess of an institution’s loan loss reserve, measures the degree its equity could suffer as a result of future loan losses. Since they do not directly impact equity or earnings, problem loans, securities and contracts do not affect an institution’s color classification. However, these items are incorporated into VERIBANC®’s star rating as described below.

THE VERIBANC® STAR RATING SYSTEM

In addition to the color code, VERIBANC® classifies each institution with Three Stars (***), Two Stars (**), One Star (*) or No Stars (U). The star rating considers future trends and contingencies not accounted for in the color classification. The star rating also incorporates problem assets (along with equity strength and profitability) as a measure of an institution’s future prospects. The criteria used by VERIBANC® to determine the number of stars assigned to an institution are as follows:

***

The institution must meet the following primary conditions: equity which exceeds five percent of assets, equity which exceeds four percent of assets after deducting for problem loans, securities and securities-type contracts in excess of loan loss reserves and positive net income* of the most recent reporting period. Banks and thrifts must also satisfy all three regulatory capital requirements (see below) and must not have any recent, serious regulatory sanctions against them. In addition, insider lending at an institution must not exceed a significant percentage of equity. If the bank is owned by a holding company, all of the holding company’s banks, taken together as if they were a single bank,

* Net Income does not include unrealized holding gains (losses) on equity securities not held for trading, but may not exclude applicable taxes on the equity securities.
THE VERIBANC® STAR RATING SYSTEM (continued)

***

must meet the criteria necessary for the group to receive at least a Two Stars rating. An institution may only have two or fewer volatile periods of asset growth/shrinkage over the past ten quarters. For banks and credit unions, problem investments also include investments that, if sold, would realize less than their cost plus specific investment reserves.

**

The institution must meet any two of the three primary conditions for the Three Stars category and has equity which exceeds its unreserved problem loans, securities and securities-type contracts. If the institution had a net loss during the most recent reporting period, the loss was not significant. Banks and thrifts must also satisfy all three federal capital requirements (see below) and must not have any recent serious regulatory sanctions against them. Additionally, if the bank is owned by a holding company, all of the holding company’s banks, taken together as if they were a single bank, must meet the criteria necessary for the group to receive at least a Two Stars rating. A Two Stars rating is applied to an institution that has three volatile periods of asset growth/shrinkage over the past ten quarters. For banks and credit unions, that have investments with a current market value that is less than their cost, that difference must not exceed equity plus specific investment reserves.

* 

The institution meets at least one of the primary conditions for the Three Stars category, reports equity which exceeds three percent of assets and also exceeds unreserved problem loans, securities and securities-type contracts. If the institution had a net loss during the most recent reporting period, the loss was not significant. Moreover, if the institution is a bank or a thrift, it meets at least two of the three federal capital requirements for tier one (core) capital and total capital as a percentage of risk weighted assets and tier one capital as a percentage of average assets. A bank may also receive no higher than a One Star rating if it has been subject to a serious regulatory sanction, or if all of the banks in its holding company, taken together as if they were a single bank,
THE VERIBANC® STAR RATING SYSTEM (continued)

* receive a One Star or a No Star rating. A One Star rating
(con’t) is assigned if an institution has four or more volatile periods of
asset growth/shrinkage over the past ten quarters. Also,
a bank or credit union may receive a One Star rating
if, absent other reasons for downrating as stated above,
the difference between the cost and current market
value of its investments exceeds the institution’s
equity plus specific investment reserves.

NO STARS (U) The institution does not meet the criteria above.

* All institutions under the control of their Federal Regulator or have been closed are
identified with a “FAILED” designation.

DATA THAT VERIBANC® USES

All federally-insured commercial banks, S&Ls, savings banks and credit unions, by law,
must make certain financial records available to federal bank regulatory agencies such as the OCC,
FRB, FDIC, OTS and the National Credit Union Administration (“NCUA”). The data must be
provided to these agencies at specified intervals, usually quarterly. VERIBANC®, Inc. has taken the
portions of this information which are released to the public periodically by such agencies and has
assembled a database that considers every financial institution operating under federal deposit
insurance. This includes approximately 20,000 depository institutions.

KEY TO THE INFORMATION PROVIDED ON THE DATA PAGE(S)

In addition to the name, type of institution and its location, the following information is
presented:

Federal Agency which Supplied This Data:
Provides the name of the regulatory authority which assembled the information contained in
this report using submissions provided by the institution.

Income Reporting Period:
Most financial institutions report their income quarterly.

Assets and Equity Reporting Date:
Indicates the last day of the financial accounting period this report addresses.

Report Preparation Date:
The day the data page is printed at VERIBANC®, Inc.
VERIBANC®, Inc.

Data Release Date:
The day VERIBANC® received the latest updated information from the applicable federal regulatory agency.

Portion of Equity Lost for the Quarter:
For institutions, which had a net loss during the most recent reporting period, that loss is stated as a percentage of the institution’s equity. For institutions which had positive net income during the most recent reporting period, “Profitable” is printed. For institutions with equity less than zero, the notation “Insolvent” is used.

Total Assets:
The total amount of assets controlled by the institution.

Equity:
The dollar amount of the institution’s equity.

Equity/Assets Ratio:
The portion of the institution’s assets that it owns (expressed as a percentage).

Net Income* for the Quarter:
The institution’s earnings or losses during the reporting period.

Current Quarter Color and Star Rating:
Each institution’s classification according to the color and star ratings tests previously described.

Previous Quarter Color and Star Rating:
The color and star ratings assigned to the institution for its previous reporting period.

Problem Loans:
The total amount of the institution’s past due and problem loans, as well as any delinquent securities or derivatives contracts, is given in the footnote description of special factors. The potential impact on equity, should these instruments deteriorate to the point of the institution having to give up on collecting them, is also provided (taking into account any loan loss reserves that may apply).

Other Data:
Certain other information is provided at the bottom of the data page. Other messages may describe why an institution is given a red or yellow designation. Also, if VERIBANC® is aware that an institution has been taken over by federal regulators and it is continuing to operate under government control, a message to this effect is presented. For banks and S&Ls, an additional message is printed indicating how well the institution is capitalized according to regulatory standards.

* income does not include unrealized holding gains (losses) on equity securities not held for trading, but may not exclude applicable taxes

-6-
VERIBANC®, Inc.

Provisional Color and Star Rating represent the VERIBANC® rating, which is expected to be assigned when the next federal data release becomes available. The data used as the basis for the rating has been supplied by the institution itself under VERIBANC®’s "Early Bird" program. Since this information has not been verified or edited by the appropriate federal regulatory agency, the rating is accorded provisional status. In addition, VERIBANC® does not assign a provisional rating, which is less favorable than the rating based on the latest-available federal data.

A commercial bank or state savings bank in the Green, Three Stars category may also meet certain other stringent financial criteria. In these cases, VERIBANC® designates the institution as a (somewhat rare) Blue Ribbon Bank*. When this classification applies, a special message is provided, indicating that the bank meets very high standards.

ADDITIONAL IMPORTANT INFORMATION

The Short Form Report also presents graphs and a table. This supplemental information allows you to compare your bank, thrift or credit union’s color code, star rating, equity/assets percentage and profitability with other similar institutions in the United States.

The information herein is based on extracts from the data released by applicable federal regulatory agencies. Among the criteria used by these agencies in assessing the financial condition of the banks, thrifts or credit unions which they regulate, is the ratio of an institution’s capital to its assets. When the data submitted to the regulatory agencies suggest the possibility of marginal performance, the agencies also consider whether or not the institution is operating at a loss and the quality of its loan portfolio. If a loss is indicated, or the institution has large amounts of loans which are delinquent or are unlikely to be repaid, the regulatory agencies often estimate the impact of these factors on the institution’s continued solvency. This report provides you with information relevant to these and other criteria.

For simplicity, VERIBANC® also uses the term “equity” in reference to thrifts and credit unions. Other words that are often used in this context are “net worth” and “capital”. These distinctions are not significant within the scope of this report.

VERIBANC® does not give, and this report should not be construed as, a warranty, an opinion or advice by VERIBANC® or the applicable federal regulatory agency as to the financial condition of the institution(s) about which you have inquired. The federal regulatory agencies consider criteria in addition to those set forth in this report in assessing the financial viability of the institutions which they oversee. The data with respect to some of these additional criteria are not released to the public as a matter of course, and VERIBANC® has not considered and does not report on such data. You should be aware that these additional criteria might be important in evaluating the financial condition of an institution.

* Blue Ribbon Report is a registered trademark of VERIBANC®, Inc.
VERIBANC®, Inc.

However, the information set forth in the data page(s) does provide an insight of an institution’s operations. The report is intended only as an overview and should not be considered or relied upon as presenting the complete picture of an institution’s financial condition. VERIBANC® possesses extensive additional financial data and reports that file periodic federal reports. VERIBANC®, also, maintains and can create, data files that involve sorting by a wide range of financial, geographical and other criteria. If you believe that additional information is necessary, VERIBANC® invites you to write for a quotation on your additional data needs. **We also encourage you to speak to your banker about any concerns you may have.**

VERIBANC® invites you to recheck the ratings of your banks, thrifts, and credit unions when the next set of data is released by the government regulatory agencies. The approximate dates when new information is expected to replace VERIBANC®’s current data on banks, savings banks, thrifts and credit unions are:

- First Quarter (ending March 31) data are usually released by May 31,
- Second Quarter (ending June 30) data are usually released by August 31,
- Third Quarter (ending September 30) data are usually released by November 30,
- Fourth Quarter (ending December 31) data are usually released by February 28.

VERIBANC® HOPES YOU FIND THIS REPORT USEFUL AND WELCOMES YOUR COMMENTS
